|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| <p>Workshop 1 - Buildings and Energy</p> <p>The workshop will look at practical things householders can do to make their homes more environmentally friendly. This will include ways of reducing energy consumption and the use of green energy (domestic renewable technologies and choosing a genuinely green energy supplier). It will also touch on the use of environmentally friendly products and appliances in the home.</p> | |
| <p>Workshop 2 - Travel</p> <p>The workshop will look at the carbon footprint associated with travel and the contribution made by different modes of transport. What policy changes are needed to facilitate sustainable travel? We will examine the benefits of shifting towards more sustainable travel - for the individual and society.</p> | |
| <p>Workshop 3 - Food and Faith</p> <p>In this workshop we will explore the connection between our faith and the food we buy, eat and share.</p> | |
| <p>Workshop 4 - Sustainability in Schools</p> <p>Two of our schools (St Bedes, Sacriston; St Cuthberts, North Shields) will share their approach to implementing the key themes of Laudato Si and Fratelli Tutti, such as promoting within school the ideas of 'Caring for Our Common Home' and the 'Common Good', while also encouraging and practicing sustainable actions within their schools, including going plastic free.</p> | |
