

Djable College—Togo

Djable College provides Secondary education for over 800 pupils in the village of Djable.

The school is desperate for benches so that pupils do not have to sit on the floor and text books to support learning. The school has no access to clean water or toilets!

Malawi & Zimbabwe

Connecting Classroom Project: Schools in East Durham are working closely with schools in Malawi and Zimbabwe. Over the next three years teachers and pupils will be sharing experiences and work and promoting global citizenship.

During the three year project the Initiative aims to support partner schools in Malawi and Zimbabwe to raise standards of resources and fa-

I would like to donate £ to La Lumiere Initiative and help improve the lives of people in Africa.

(Cheques should be made payable to la Lumiere Initiative and sent to The Treasurer, Gillian Nichols, 2 Briar Glen, Murton.

Co. Durham, SR7 9SQ)

La Lumiere Initiative

Supported by the Rotary
Club of Seaham

Lighting up Lives

What we do

La Lumière Initiative was established in 2006 by Rotarians from the Rotary Club of Seaham to help some of the poorest countries in the World. We work in partnership with Rotary Clubs in Africa to ensure funds go directly to those most in need.

We have focused on four countries: Togo and Benin in West Africa and Malawi and Zimbabwe in South Africa.

The Initiative supports:

- Education and training
- Water
- Health

We recognise the need of the people living in some of the poorest countries of the world.

We strive to identify projects and work with local people to improve health and education service. We recognise the urgency of providing communities with clean accessible water and public latrines.

Togo

Noepe Village Project.

In August 2007 we met with the village elders and community representatives of Noepe. They explained that they had many needs but their priorities were:

- Public latrines: They identified 3 areas– the village centre, the market place and next to the dispensary.
- Repair of the school water tank and resources to aid learning.
- A community library for the village - elders identified a disused post office as an ideal location.

Proposed building for community library project.

Benin

Possotomme Kindergarten

A newly established order of Catholic nuns called La Servantes de la Lumière du la Christo based in Lokossa want to develop an educational project in Possotomme.

The project has been broken down into several phases. Phase 1 involves building and equipping a Kindergarten.

Future phases involve building a Primary School, Secondary School and sports ground to provide an all round education for the children of Possotomme.

Possotomme—hot spring water project

Psychiatric Hospital Family Support project

This project aims to provide facilities for families who look after their relatives whilst in hospital. This will include a garden area with shade canopies, benches, cooking area and toilet block.
